buildings according to approved plans and within a stipulated time.

2. It is also a point for consideration whether it would not be advisable to keep the place, which is so centrally situated, for any future public purpose such as quarters for the Technical Institute & the next General Hospital which are both quite close to this site; It is understood that the Administrative offices of the Mysore State Railways are to be located in Mysore, and in which case the requirements of the Ry. Dept. have also to be ascertained. The Chief Engineer may therefore be officially consulted before passing orders in this case.
